Industrial revolution webquest answer

American Industrial Revolution Webquest 1/2 Task: Along this Webquest, you will visit several websites focused on specific inventions. Each website will have a task so that you can complete it. To move on to the next stage, click the link for the next invention. Inventions: Lowell Mills i/2 Farm Equipment (Steel Plough) i/2 Morse Code i/2 Cotton Gin Tom Thumb Locomotive i/2 American Industrial Revolution WebQuest The Lowell Mills (Panel #2) Task: During the 1800s, America witnessed a change in America: factories were hiring women. One of those factories was the Lowell Mills in Massachusetts! Your task is to click on this site. This website includes entries from magazines played by women who worked at the Lowell Mills. Read the magazine's entries and complete the task: 1. Explain how the Lowell Mills treated the wounded or sick at work. 2. Do you think that how the Mills treated the wounded was right or wrong. Why? American Industrial Revolution WebQuest Farm Equipment (Panel #3) Task: As many of you already know, John Deere is a popular brand of agricultural equipment today. Make a selection of this site to help you follow your understanding of John Deere by answering the questions. Explain why John Deere developed steel ploughing. How do you know that your invention was successful? Task: Another famous inventor was Cyrus McCormick with the mechanical harvester. Go to this site and complete the following question below: Why did Cyrus's harvester sell so slowly for the first few years after inventing it? American Industrial Revolution WebQuest Morse Code (Panel #4) Task: In 1837, Samuel F.B. Morse created a style of communication that cities and naval ships use to transmit messages. The machine sent long, short pulses of electricity along a wire; the messages were in dots and dashes! In fact, you've probably seen this in movies like Titanic to convey messages of anguish (sinking in the middle of the ocean). Go to the next place and do the following below. Type your name and select Translate to see what your name is in Morse Code. Then select game to listen to your Morse code name. Giving an example of how being able to communicate over long distances would help Americans. American Industrial Revolution WebQuest Cotton Gin and Slavery (Panel #5) Task: This task might be interesting, but challenging for you. First, click on this site and scroll until you see the animation of cotton gin. Now complete the following tasks below. 1. Examine animation and explain how Eli Whitney had the idea of cotton from an observation he made: ... Watching a cat reach through a fence, try (to reach) for a chicken, and come out with nothing but feathers... What are you doing? American Industrial Revolution WebQuest Tom Thumb Locomotive (Panel #6) Task: Railways and Transportation would be a change of America during the 1st and 2nd Industrial Revolution. The rail boom began with the first steam-powered locomotive, the Tom Thumb. Click on this site to learn a little more about ol' Tom Thumb. 1. Why do you think using steam-powered locomotives would be better for the railway than using horses? American Industrial Revolution Webquest Conclusion (Panels #7 and 8) Task: 1. Summarize what you have learned by completing this webquest in 3 - 4 sentences. (panel 7) 2. Which of the inventions covered in this webquest do you think was most important in helping the US become an industrial power? What? Draw a color illustration of your choice. (Panel 8) Congratulations on completing your adventure to discover important inventions developed during the 1st Industrial Revolution. Remember that your answers must be organized (by panels) in full sentences on your folding webquest. Foldable.
